

## Who are we?

Stackhouse Poland Limited is a specialist Insurance Broker providing bespoke services to Private and Corporate clients and has built an enviable reputation since being established in 1974.

We are an independent, management owned, award-winning company which passionately believes in doing the best for our clients, both in terms of policy coverage and in providing a highly personalised service.

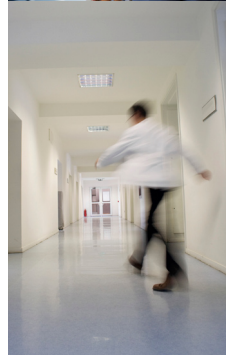

We are proud of our Investors in People accreditation and we are authorised and regulated by the Financial Services Authority.

## What do we do?

As a management owned company we have a long-term interest in providing our clients with the highest quality insurance advice and service across a broad spectrum of insurances, including the provision of private medical insurance to individuals and companies.

This includes tailoring all-inclusive healthcare programmes with proven and 'balance sheet' strong insurers.

We believe that no two clients are the same and their insurance programmes must be dealt with on that basis, particularly when insurance costs rise dramatically as they sometimes do in the private medical sector. Our consultative approach ensures that premium costs are contained and policies are more appropriately structured in order to tailor the right programme for each client.

## Who are our clients?

Our Healthcare division looks after a diverse group of clients for their private medical insurance and healthcare benefit needs:

- Individuals
- Family groups
- Small businesses
- Medium size enterprises
- Large corporate clients.

In view of the wide range of contracts available for both individuals and groups, we have specialists in each area to advise you properly, allowing us to be client focused and solutions driven.

## What do our clients want?

Our clients want a broker who cares about their insurance and who is prepared to go the 'extra mile' to assist and provide total peace of mind.

There is definitely no case of 'one size fits all' and by understanding our clients' requirements, detailed programmes can be designed and delivered:

- Standard UK and international private medical insurance
- Health screening
- Dental insurance
- Health cash plan
- Employee assistance programme
- Occupational health
- Childcare voucher provision.

These are just some of the areas which can be discussed in order to ensure the most appropriate benefits can be secured at the most competitive rates.

## Company schemes

Regardless of the size of an organisation, Stackhouse Poland can tailor a programme to suit both the employee benefit and budgetary needs of the company:

- UK and international
- Fully insured, risk/profit share and trust arrangements
- Budget, comprehensive and deluxe policies
- From standard benefits to a flexible menu driven approach
- 1 to 10 year age banding
- Claims related pricing (for suitably sized corporate arrangements)
- Various levels of hospital access
- Various cost containment options
- Accessible private care for the treatment of cancer.

## Individual policies

The healthcare needs of most individual clients are unique in one way or another. By confidentially discussing these requirements, our team can ensure that you have the most appropriate cover for your circumstances:

- UK policies and international plans
- Multi-country policies (eg - when parents reside in one country and their children attend school in another)
- Off the shelf products to menu driven plans where you select your own benefits
- Budget, comprehensive and deluxe arrangements
- Self funded policies (an alternative to conventional insurance plans)
- Payment options of monthly, quarterly and annually paid subscriptions.

Healthcare

### Your Healthcare team

Each of our clients is looked after by an experienced specialist consultant who will become your dedicated point of contact and one who can recognise and manage expectations in an often complex and dynamic environment.

We ensure that benefit designs always suit client's unique demands and needs. Our market awareness of both industry developments and advances in medical science means we can recommend the most suitable and sustainable insurance programs.

We offer an impartial service where a great deal of time and consideration is given to understand our clients' specific requirements and objectives for purchasing their healthcare benefits.

### Stackhouse Poland Private Clients

A range of services for private clients: fine homes, large contents schedules, particularly art and antiques, along with solutions for other personal possessions such as motor, yacht, holiday and overseas homes and all other personal insurances.

### Stackhouse Poland Corporate

We also offer a broad range of specialist business insurances for small and large companies, commercial and residential investment property, professional indemnity, directors and officers' liability, industrial risks and many other specialist covers.

For further information regarding any of our services other than healthcare please call our head office and ask to speak to one of our private or corporate client managers who will be pleased to assist.
